Subject: Application for Junior Web Developer Position

Hi Mr. John Doe,

I hope this message finds you well. I'm reaching out about the Junior Web Developer job at X Limited from the ABC platform. I love coding and recently trained in web development, learning HTML, CSS, JavaScript, React, and Node.js.

What excites me about X Limited is its focus on innovation and helping employees grow. I'm eager to bring my skills and fresh ideas to your team. I've attached my resume for your review and would appreciate discussing how I could contribute to your needs.

Thanks for considering me. I'm really looking forward to the chance to work with X Limited.

Best regards,

Shojol Islam
